In addition, further accredited programmes in personal and social development and employment are also part of the Lakeside curriculum

## THERAPY

Therapy services are key to the delivery and success of the learning pathway. Each student will have a named therapist for both speech & language therapy and occupational therapy. The integrated therapeutic approach also includes relaxation & well being therapy, rebound therapy, music therapy and hypnotherapy as appropriate.

As well as timetabled intervention students are encouraged to independently make appointments for individual coaching as and when required.

## COMMUNITY-BASED LEARNING

A considerable amount of curriculum time takes place off campus where students focus on health & well being, independence, personal safety and financial capability through such activities.

In support of this, each student is asked to provide a voluntary 'pocket money' contribution of £10 per week. Students are actively involved in making choices relating to pocket money use and budgeting for this forms part of the weekly financial education lesson in college.
